📍 Naples, Italy

Hi I'm Dario Vigilante, a student at Federico II of Naples graduating in Engineering-Architecture and employee at Municipality of Naples with a solid passion in Technology and Computer science who recently started the Developer path. I would just define myself as a curious and open-minded guy passionated about different subjects and cultures with a craving desire to learn new things. If you are looking for a person who has no problem working in a multicultural team, loves to study and stay up to date, really into analyzing problems and always in search for possible solutions, I'm the person you want in your team.
